

SHOW ME YOUR GLORY

Mighty are Your works, O God, in all the earth
Everywhere I look I see Your hand
You formed the universe with words, all powerful You are
With Your words, the mountains, they must move

The colours in the autumn leaves, the flowers in the spring
Creation's beauty tells Your awesome works
The earth is just a shadow of what You've prepared for me
My heart longs to see You face to face

*Show me Your glory, show me Your ways
Reveal the secret things by Your Spirit, from Your Word
Show me Your glory, show me Your ways
I will draw near to You and abide in You always*

From the highest mountain top down to the streams below
The wonder and the beauty flood my soul
You rule over the surging seas, there's no one else like You
Yet Your unfailing love and mercy cover me
